## Climate control starts with your windows

It's no secret the sun's rays can cause car interiors to become unbearably hot when the windows are rolled up. But you can keep your cool with FormulaOne® High Performance Auto Tint by LLumar®. The Pinnacle™ Series helps block the sun's heat to help keep you and your passengers more comfortable.

Lower interior temperatures mean you don't have to run your air conditioning as often, which can contribute to fuel efficiency and reducing carbon emissions. FormulaOne automotive window tints help to create a safer, more comfortable ride for everyone.
